Coding FAQ - Common questions about creating and using forms, controls and any other objects.

Flash is supported on all platforms. Just place a WebView and the right location with flash on a form.

Supported image formats

recommended animation:

- MNG (Multiple-image Network Graphics)
- GIF (Graphic Interchange Format)

recommended image:

- PNG (Portable Network Graphics)
- JPG/JPEG (Joint Photographic Experts Group)
- SVG (Scalable Vector Graphics)

additional:

- BMP (Windows Bitmap)
- PBM (Portable Bitmap)
- PGM (Portable Graymap)
- PPM (Portable Pixmap)
- XBM (X11 Bitmap)
- XPM (X11 Pixmap)

- ICO are not supported, because it is not available on Mac or Linux. I recommend converting ico files to png files.

Supported sound formats
